

- (b) extracting a plurality of physical attributes of a target device from said file,
- (c) creating a graphical representation based on said plurality of physical attributes found in said file, and
- (d) displaying a plurality of said graphical representations on a host computer display.

ABSTRACT modifications/changes:

Pg 17 (Abstract). 2nd line:

Replace: "test vectors or test executives."

With: - test vectors, test executives, or target programs.

Pg 17 (Abstract): 9th line:

Replace: "Intuitive indicators"

With: - Graphical indicators

REMARKS – General

By the above amendment, Applicant has modified the language of the specification to help clarify the novelty of the invention.

Also applicants have rewritten all the claims to define the invention more particularly and distinctly so as to overcome the technical rejections and define the invention patentability over prior art.

Elections/Restrictions

Claim 11 is withdrawn and has been removed from the re-written claims.

The Claims Rejection Under § 112

Claims 1-10 were rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 has been re-written as Claim 13. The term "easy to use and intuitive" was removed.
